

Our flexible process allows us to develop customized Rooibos extracts according to client specification and product development can be done in collaboration with clients.

We are a certified manufacturer of Organic (EU, NOP, JAS and Korean) as well as Fairtrade, UTZ, Rainforest Alliance, Kosher and Halaal certified products. Our state of the art facilities are also HACCP accredited.

Rooibos extract has a shelf life of 36 months.

Quantities of 2.5 kg and 18 kg are packed inside a double layer clear food grade plastic bag (60 micron) and finally into a corrugated cardboard box.

SINCE 1954

ROOIBOS EXTRACTS

Rooibos is a unique tea from the Western Cape region of South Africa and has been enjoyed by South Africans for more than 100 years. It is naturally caffeine free, low in tannins, contains no oxalic acid and is rich in flavonoids and antioxidants, making it the ideal beverage for young and old. It is believed to have a soothing effect on the central nervous system, has antispasmodic properties and aids in the management of allergies. It is traditionally served as a hot or cold beverage, but is increasingly being used in novel applications.

Rooibos Limited offers you a wide range of Rooibos products with the addition of our new Rooibos extracts. Extracts offer endless opportunities for creating new products, formulations and even adding new flavours to existing ranges. The extracts in our portfolio can be used in a number of applications in the food, beverage and cosmetic industries.

PRODUCT NAME	GENERAL DESCRIPTION	CERTIFIED PRODUCTS AVAILABLE	SOLUBILITY	RECOMMENDED USE	
				DOSAGE	APPLICATION
E1CHA Rooibos Hot Water Soluble Extract		<input checked="" type="checkbox"/> EU Organic <input checked="" type="checkbox"/> NOP Organic <input checked="" type="checkbox"/> JAS Organic <input checked="" type="checkbox"/> Korean Organic <input type="checkbox"/> UTZ Certified*** <input type="checkbox"/> Rainforest Alliance*** <input type="checkbox"/> Fairtrade Certified*** <input checked="" type="checkbox"/> Kosher <input checked="" type="checkbox"/> Halaal	The product is 100% water soluble at 80°C.	2g/L	Used in cosmetics, hot beverage applications (eg. chai mixes, instant cappuccino blends etc.), food applications such as confectionary and cereals, as well as nutritional supplements.
					
E1CHB Rooibos and Maltodextrin Hot Water Soluble blend		<input type="checkbox"/> EU Organic <input type="checkbox"/> NOP Organic <input type="checkbox"/> JAS Organic <input type="checkbox"/> Korean Organic <input type="checkbox"/> UTZ Certified <input type="checkbox"/> Rainforest Alliance <input type="checkbox"/> Fairtrade Certified <input type="checkbox"/> Kosher <input type="checkbox"/> Halaal	The product is 100% water soluble at 80°C.	4-6g/L	Typically used as a true instant Rooibos to be enjoyed with or without milk and sugar. The strength of the brew can be adjusted by simply adding more or less of the product.
					
E1CCJ Rooibos Cold Water Soluble Extract 02		<input checked="" type="checkbox"/> EU Organic <input checked="" type="checkbox"/> NOP Organic <input checked="" type="checkbox"/> JAS Organic <input checked="" type="checkbox"/> Korean Organic <input type="checkbox"/> UTZ Certified*** <input type="checkbox"/> Rainforest Alliance*** <input type="checkbox"/> Fairtrade Certified*** <input checked="" type="checkbox"/> Kosher <input checked="" type="checkbox"/> Halaal	The product is 100% soluble at 20°C. *NTU value is typical under 80 when dissolved at 2g/L.	2g/L	This product is excellent for use in iced tea/RTD applications, especially in an environment that is not very acidic and where the application does not require 100% clarity. Can also be used in dairy products etc.
					
E1CCL Rooibos Cold Water Soluble Extract 01 Acid stabilized		<input type="checkbox"/> EU Organic <input type="checkbox"/> NOP Organic <input type="checkbox"/> JAS Organic <input type="checkbox"/> Korean Organic <input type="checkbox"/> UTZ Certified <input type="checkbox"/> Rainforest Alliance <input type="checkbox"/> Fairtrade Certified <input type="checkbox"/> Kosher <input type="checkbox"/> Halaal	The product is completely soluble at 20°C. * NTU value is <30 when dissolved in 2g/L.	2g/L	Ideal for any application with a low pH formulation such as acidified cold beverages, where clarity is essential. As a dry ingredient in instant (iced) tea pre-mixes containing an acidifier.
					

PRODUCT NAME	GENERAL DESCRIPTION	CERTIFIED PRODUCTS AVAILABLE	SOLUBILITY	RECOMMENDED USE	
				DOSAGE	APPLICATION
E2CCJ Green Rooibos Cold Water Soluble Extract 02	This extract is made from unfermented Green Rooibos. It is typically higher in the unique Rooibos antioxidants than fermented Rooibos and contains a minimum of 30% polyphenols. E2CCJ consists of the cold water soluble fraction of Green Rooibos and has a very attractive light orange colour when dissolved.	<input checked="" type="checkbox"/> EU Organic <input checked="" type="checkbox"/> NOP Organic <input checked="" type="checkbox"/> JAS Organic <input checked="" type="checkbox"/> Korean Organic <input type="checkbox"/> UTZ Certified*** <input type="checkbox"/> Rainforest Alliance*** <input type="checkbox"/> Fairtrade Certified*** <input checked="" type="checkbox"/> Kosher <input checked="" type="checkbox"/> Halaal	The product is completely soluble at 20°C. *NTU value is <80 when dissolved in 2g/L.	2g/L	Can be used in iced tea/RTD applications, especially in an environment that is not very acidic. Ideal for applications where the unique antioxidant character of Green Rooibos is required (eg. cosmetics, foodstuffs, dairy and nutritional supplements).
E2CCL Green Rooibos Cold Water Soluble Extract 01 Acid stabilized	E2CCL is an acid stabilized cold water soluble extract. This product is more stable than E2CCJ in chilled beverage applications, especially in low pH environments. It is lighter in appearance than E2CCJ when solubilized, but offers greater stability, making it the preferred choice for PET packaging.	<input type="checkbox"/> EU Organic <input type="checkbox"/> NOP Organic <input type="checkbox"/> JAS Organic <input type="checkbox"/> Korean Organic <input type="checkbox"/> UTZ Certified <input type="checkbox"/> Rainforest Alliance <input type="checkbox"/> Fairtrade Certified <input type="checkbox"/> Kosher <input type="checkbox"/> Halaal	The product is completely soluble at 20°C. *NTU value is <30 when solubilized in 2g/L.	2g/L	Ideally used in low pH formulations such as acidified cold beverages, where clarity is required. As a dry ingredient in instant (iced) tea pre-mixes containing an acidifier.
E1CAO Rooibos Aroma	This unique product consists of the volatile aromatic compounds of natural fermented Rooibos (**FTNF). It is free of solvents and preservatives. It is a natural aroma and can therefore be used with organic products in accordance with the specification.	<input type="checkbox"/> EU Organic <input type="checkbox"/> NOP Organic <input type="checkbox"/> JAS Organic <input type="checkbox"/> Korean Organic <input type="checkbox"/> UTZ Certified <input type="checkbox"/> Rainforest Alliance <input type="checkbox"/> Fairtrade Certified <input checked="" type="checkbox"/> Kosher <input checked="" type="checkbox"/> Halaal	Clear water based liquid.	1/1000	This is an ideal product to enhance the Rooibos flavour in formulations, as it adds back the top notes to dissolved Rooibos extracts.

* Nephelometric Turbidity Unit (NTU) is a measurement of the cloudiness or haziness of a liquid caused by suspended solids that are generally invisible to the naked eye.
 ** FTNF = From The Named Fruit.
 *** Certification depends on the availability of certified raw material. Certified product is not a stock item and should be specifically ordered.
